

Dual degree program from University of Skovde, Sweden

Graduate students of biotechnology, microbiology and biochemistry can enroll for a dual degree program at University of Skovde, Sweden, through the collaboration with Vidya Prasarak Mandal. The students will have to complete one semester at University of Skovde as defined in Table 1. After successful completion of these studies they will be awarded with a Bachelor of Science degree in Molecular Biology/Biomedicine. Students that have completed the dual degree will be eligible to enroll themselves in a suitable Masters programme at University of Skovde as indicated in Table 2.

| | |
|---------------------|------------|
| Lab Intro | <i>Sep</i> |
| Protein Engineering | |
| BSc Thesis | <i>Nov</i> |
| | <i>Jan</i> |

Table 1.

Lab Intro indicates Introduction in Laboratory Techniques.

| Molecular Biology | | Biomedicine | | Option 2 |
|--------------------------|------------|--------------------|------------------|---------------------------------------|
| Gen Eng Biotech | <i>Jan</i> | Genomics | | Physiology |
| | | Hum Gen | | |
| Infect Biol | <i>Apr</i> | Endoc MoMa | Ex Des Ex Bio | Pharmacology |
| | | | | Endoc Pr Mod Ex Des Ex Bio |
| MSc Thesis | <i>Aug</i> | MSc Thesis | | MSc Thesis |
| | <i>Jan</i> | | | |

Table 2.

Infect Biol indicates Infection Biology; **Gen Eng**, Genetic Engineering; **Biotech**, Biotechnology; **Hum Gen**, Human Genetics; **Endoc**, Endocrinology; **MoMa**, Molecular Markers; **Pr Mod**, Protein Modelling; **Ex Des**, Experimental Design; **Ex Bio**, Experimental Biomedicine.

ACADEMIC CALENDAR

At Univ. of Skovde: Autumn semester: Mid August – Mid January
Spring semester: Mid January –Mid June

The student will pay for the ticket and visa fees. Also, students will be responsible for food and living costs, while at University of Skovde, Sweden and they should arrange for adequate health insurance.
